

TARIFF PICTURES.

In Mahoning county, O., in which the city of Youngstown is located, the total amount of industrial wages paid in 1890 was \$1,709,000.

In 1890 the wages paid in Youngstown alone were \$1,709,000.

It is this kind of progress that Democratic success has brought to a sudden halt.

—New York Press.

A POSSIBLE EXPLANATION.—It is just possible that a threat by Speaker Crisp to lay Bland on the shelf would result in laying Speaker Crisp on the shelf.

PERNICIOUS ACTIVITY.—St. Louis Globe-Democrat.—If Secretary Morton isn't careful he will write too many letters upon subjects which have no relation to the business of the garden seed department.

MUST BE HIGH.—St. Louis Globe-Democrat.—There is an evident intention on the part of the Democratic Senators to sell themselves as cheaply as possible in the coming struggle over the Sherman Law.

PATRONAGE VERSUS SOUND MONEY.—St. Louis Globe-Democrat.—The extent of the Democratic vote on the sound money side depends largely on the number of paying officials which Cleveland is willing to put at the disposal of Congressmen.

THEY GO WEST.—Chicago Tribune.—Out of 374,741 alien stowaway passengers landed in New York in 1892, only 1,116 gave their destination as the Southern States. So far this year the proportion of the backward bound immigrants is no greater.

WHAT DEMOCRACY WILL DO.—Atlanta Constitution.—There are no chances in all right. Give it a ghost of a chance and it will redeem its pledges—cut down the tariff to a revenue basis, restore genuine bi-metalism and repeal the 10 per cent. tax on state banks.

THE REAL PROBLEM.—St. Louis Globe-Democrat.—Cleveland sits on his seat of power nowadays and corrugates his brow with calculations as to how various Federal offices can be disposed of to the best advantage in securing Democratic votes for the repeal of the Sherman Law.

GLAD REVENUE IN SKATES IS GOOD.—Herald.—Manufacturers are this season receiving larger orders than ever for skates. One company received two orders in one week for 100,000 pairs another for 50,000 pairs. As is well known, this is the busy season for the manufacture of skates.

NO LONGER PIVOTAL.—St. Louis Globe-Democrat.—According to the Democrats New York is not necessary to the success of their party in Presidential elections hereafter, but if that state should go against them this year, and the chances are that it will, the outlook for them in 1896 would lose some of its charms.

NO FLIES ON POTTER P.—Des Moines Register.—There now finding fault with Mr. Palmer for entertaining the Infants at his hotel at the expense of the Government, and entertaining her at his own expense at his private residence. With the profit of one transaction he paid the expenses of the other.

THIS EXPLAINS IT.—St. Louis Post-Dispatch.—Kentuckians are complaining bitterly that their building at the Fair is ill-kept and that their display is inferior to that of other states. But it must be remembered that many Kentuckians have had to put in a great deal of time in looking after the National offices that must be filled by good men, and that Grover has been so long that the time they might have devoted to their Fair Building has been consumed to the service of the Nation.

WHY CLEVELAND SHOULD SPEAK.—Philadelphia Manufacturer.—If it was Mr. Cleveland's desire to destroy confidence, to stop credit, to embarrass banks, to drive money into hidden hoards, to cause sorrow, to ruin the business in despair, these objects are now fully accomplished. In place of the good times in 1892, hard times have indeed come.

Why, then, should not the country expect its President to repair this terrible danger? Why should he not be expected to say: "I repudiate the declaration that the Constitution forbids a Protective Tariff. I will not sign any bill making such a reduction of import duties as will break down American industry. The country may resume its business activity with every assurance that I will permit no legislation to destroy it."

It would be easy for him to say these few words, and the effect of it who can doubt?

PUBLIC LEADER

MAYSVILLE, KY., WEDNESDAY, JULY 26, 1893.

SECOND YEAR. ONE CENT.

Dr. C. O. Owens is back from a trip to Glen Springs.

Mrs. J. B. Noyes will visit the World's Fair next week.

Mr. and Mrs. John W. Boulden were in Cincinnati Monday.

Miss Katie Poyntz left this morning for Chicago and the Fair.

Mr. and Mrs. Charles Hillary left this morning for Bluebird Springs.

Miss Annie A. Redmond is visiting Mrs. Henry Childs at Limestone.

Mrs. Lee Gray and daughters are on a visit to relatives near Irving Station.

"Colon" Byersdorfer of Ripley was a business visitor in the city yesterday.

Fox Bessie came down from Frankfort two weeks visit to her aunt in this city.

Mrs. J. M. Walton of Germantown is visiting her sister, Mrs. Anna Threlkold of Forest Avenue.

William Mat Archdeacon, the fearless wanderer, departed this morning for the World's Fair.

Mr. and Mrs. C. W. Forman and William Stevenson returned from the World's Fair last evening.

Mrs. L. V. Davis, Miss Mollie T. Edmonds and Miss Mary Bode left this morning to visit the World's Fair.

Miss Nettie Smith has returned from a two weeks visit to her sister, J. B. Faulkner, at Falmington.

Miss Mary Alter Barber and Miss Anna Della Power have been spending a few days with Miss Mattie Forman.

Miss Anna Bona left yesterday for a two weeks visit to relatives and friends at Lexington, Winchester and Versailles.

Miss Ida Walsh, who has been visiting on Walnut Hills, Cincinnati, has returned home, accompanied by Miss Daisy Hoek.

Mr. and Mrs. John A. Blair of Tilton have returned home after spending several days with Mr. and Mrs. George Schramm of East Fifth street.

William Sporenberg will go to Cincinnati tomorrow and will accept a position as messenger on the C. and O. between Cincinnati and Huntington.

J. Varian, a former business man of Mayville and a good citizen generally, now of Winchester, O., was in the city yesterday on a visit to relatives. He called on THE LEADER.

Miss Sue Cunningham, a charming young lady of Owensboro, has spent several weeks very pleasantly with Miss Florence Frank of the Fifth Ward, left yesterday morning for her home.

Captain P. B. Wain, Commandant of the cadets at the Davis Military School at Winston, N. C., was in the city yesterday, en route to Cape May, after a visit to his parents at Point Pleasant, W. Va.

FOUR YEARS LATER.—When all the offices are filled, and the election is over, then will they take a turn about to get the offices filled.

DULEY & BALDWIN, Fire Insurance Office, 305 Court street.

The Louisville Jeans Company failed for \$50,000, owing to the Democratic good times.

AYER'S PILLS promptly relieve stomach troubles, correct food and an unpleasant taste, and cure constipation.

ONE Victor '92 for \$100; good as new. POWER & REYNOLDS.

BORN, July 24th, to Mr. and Mrs. Pearce B. Mills, a son; name, George Phillips Mills.

Not a Kentuckian has filed application for office at the Treasury Department for five weeks.

REV. samjones is blowing his trumpet and raking in the coin at High Bridge Camp-meeting.

J. O. ROBBY, a fifteen-year-old, was drowned while bathing in Dix river near Lancaster.

The camp-meeting at Mt. Olivet is being well attended and great interest is being manifested.

THREE persons were killed at Henderson Monday night by a railway engine jumping the track.

C. T. PORTWOOD, the Danville clothier, has gone to the wall for \$15,000. Democratic good times did it.

A SAFE, simple and effective remedy for indigestion is a dose of Ayer's Pills. Try the Pills and make your meals enjoyable.

The street car line continues to do a good business, though every other branch of business seems to be more or less stagnated.

CAPTAIN GEORGE M. THOMPSON, formerly of this city, has just completed a home residence for himself at Lucile, W. Va.

The Sub-Treasury at Chicago refused to exchange currency for silver, because he hadn't force enough to count the 50 cent coin.

THERE is not a large crowd in attendance at the colored camp-meeting at Dieter's Grove. However, considerable interest is manifested.

JAMES T. BUTCHER and Miss Nora Kitter, both of this city, were married yesterday evening at the residence of Rev. D. P. Holt and by him.

PAIK GREEN, aged about 28 years, died at the home of his sister, Mrs. John Day, in the Sixth Ward, yesterday morning. The funeral will take place at the M. E. Church today at 3 o'clock.

FOR fear our neighbor down street hadn't heard it, we state that the wages of employees of the Lane & Bodley Company, Cincinnati, have been reduced 25 per cent. There's been a change.

A LARGE number of Henglish tourists passed here the Chesapeake and Ohio this morning, going to the World's Fair. They will probably buy the "biassed currency" and take it home with them.

TO MORROW night has been set apart by the managers of the "Old Kentucky Exposition" in Covington as Kentucky night. One of the features will be an immense portrait in fire of Governor John Brown.

WILLIAM CHROUCH of Danville was murdered by Sam Newton a tough at High Bridge Camp-meeting. It is probable that Jones, mean whitey, toughs and loud women are the chief attractions at this gateway to hell.

THE Citizens' Bank of Connersville, Ind., opened by J. N. Hooten, ex-C. S. Treasurer, has gone Democratic by \$100,000. Mr. Hooten has been a frequent visitor to this city in connection with the fuel gas business.

FOLLOWING the footsteps of the Kentucky National the Louisville City National Bank has gone Democratic by several hundred thousand dollars margin. Meanwhile the banks of Mayville stand as the Limestone hills behind us.

THE Pennsylvania Railroad system is said to have decided to substitute the long distance telephone for the telegraph in the operation of its lines. It is probable that it will use a question of time until the telephone is used along all railroads in preference to the wire.

ANOTHER delightful excursion on the steamer Lurline last night was participated in by about 150 people. After the regular excursion, the boat was chartered by a crowd of young people, who went up the river on a moonlight excursion with dancing for the trimmings.

THE Chesapeake and Ohio Railway announces a rate of one fare for the round trip from Mayville, Huntington and Intermediate stations to Portsmouth, O. for the Ohio Valley Agricultural Fair August 1st, 2d, 3d and 4th, tickets to be good on regular trains and limited to August 5th.

DURING the past seven days there were 67 business failures throughout the United States, against 16 during the corresponding week of last year. The lack of confidence in the present Administration, of course, had no relation to the large increase in the number of failures.

A PETITION is in circulation in Scott county requesting the County Court to order an election on the local option question for December 18th. The election which has been held in Augusta and Bracken county for the purpose of voting on this has been declared off, as the law governing it is said to be unconstitutional.

THE business of caring for impetuous descendants of Columbus grows on us. A brother of the Duke of Vergara insists that he should have at least a third of whatever fortune is ever raised by the Duke of Vergara. There is no more money in this country now than is needed. And it would be much better to donate the amount that will be raised to assist the Duke to some benevolent institution where the benefits will be reaped by our own people than to send it where it will be wasted in gambling-house and where the Duke of America should care for her own people and allow other countries to do likewise when they are capable.

MAYSVILLE WEATHER.

The notice for 1891 are now due at my office at Kentucky Avenue, at 10 o'clock. On and after the 1st day of August 5 per cent. penalty will be added. JAMES W. FITZGERALD, Collector and Treasurer.

THE LEDGER'S WEATHER SIGNALS.

White clouds—FAIR;
Blue—RAIN or SNOW;
With Black ABOVE—TWILY WARMER;
Grey,
If Black's BENEATH—COLDER! will be;
Unless Black's shown—no change will see.

THE above forecasts are made for the day ending at 8 o'clock to-morrow evening.

THE Louisville Trust Bank is the latest to go Democratic.

C. P. PORTWOOD, clothier of Danville, has made an assignment.

THE Ohio is lower at Pittsburgh than it has been during the present year.

THE Merchants' National Bank of Louisville also has gone Democratic.

More than 70,000 stamps are found every year loose in the letter boxes of the United Kingdom.

THE doors which form the entrance to the houses in Larch are never more than one and a half feet high.

SCOT for \$300,000 damages has been brought in the Mahanberg Circuit court by the heirs of E. F. Brewer against the Newport News and Mississippi Valley Railroad Co. for killing of Brewer, who was an engineer on the road and lost his life in a wreck at Central City last winter.

HOKY POKEY.

Trouble Smith of Georgia is preparing for the Administration.

The present pension policy is not pleasing to Democratic members of Congress.

They hear from their constituents protests against the severity of the rulings of the Pension Board, as managed by Commissioner Lockwood under orders of Hoke Smith, the Secretary of the Interior.

Old Soldiers are disturbed at having a young man from their South take away their pension, and they let their Congressmen know that this policy is not satisfactory.

The Democratic Congressmen, stirred up by the now they see impending, are beginning to see that if the Pension Office continues in its policy of making old soldiers poorer they are not disinterested in the matter.

Therefore, a number of Democratic Congressmen from the North are entering their protests with the Interior Department against the Pension office.

Aside from the displeasure of the Republicans at the manifest injustice, the Administration and the pensioners are to face the wrath of some of their own supporters.

Thus another trouble will have to be borne by President Cleveland.

NASHVILLE, TENN., March 6th, 1893.—J. M. McCall, Nashville, Tenn., writes to THE LEADER: "It gives me exceeding pleasure to read of the success of the 'Old Kentucky Exposition' in Covington. It is something wonderful in the way of medicine. My old sister, who is 72 years old, was very sick with pneumonia, complicated with dropsy. She was in bed for two weeks, and a physician and gave him every attention, but the doctor did not do her any good, and the only thing that could be done was to let her die. I decided to give her the 'Old Kentucky Exposition' in Covington. It was a regular dose every three hours and the fever subsided. She was up in a week, and a decided improvement was noticed. The first thing she did was to say 'I feel like a new woman.' She is now very well and is very happy. I am very glad to hear of the success of the 'Old Kentucky Exposition' in Covington. It is something wonderful in the way of medicine. My old sister, who is 72 years old, was very sick with pneumonia, complicated with dropsy. It is something wonderful in the way of medicine. My old sister, who is 72 years old, was very sick with pneumonia, complicated with dropsy. She was in bed for two weeks, and a physician and gave him every attention, but the doctor did not do her any good, and the only thing that could be done was to let her die. I decided to give her the 'Old Kentucky Exposition' in Covington. It was a regular dose every three hours and the fever subsided. She was up in a week, and a decided improvement was noticed. The first thing she did was to say 'I feel like a new woman.' She is now very well and is very happy. I am very glad to hear of the success of the 'Old Kentucky Exposition' in Covington. The Business Way!

The business way to advertise is to take up your advertisements in making them attractive, and change them at least as often as once a month. You may think there are seasons when you don't need to advertise. We have never seen that time. Use the dull seasons for looking over your stock and running off that which is becoming out of style or unfashionable, and giving bargains. If you have space by the year, it costs you no more, and you can make it profitable by converting unsalable goods into money, and reinvesting the money in those things which are salable.

The life of the Democratic farmer is not very comfortable these days. Most of them are keeping out of the way of their Republican friends to escape answering such embarrassing questions as "How much more is wool worth now than last year?" "What effect has the election of CLEVELAND had on the price of wheat?" etc. But they wanted a change, and they got it, be gosh!

Judas sold his master for thirty pieces of silver; that, thirty Roman pennies, about \$4 12. One Roman penny was a good day's wages for an agricultural laborer. But this good Democratic gold times it might be for the tens of thousands of unemployed workmen to study up the values of ancient coins. It looks very much as if we were getting back to "the good old times" that was promised if CLEVELAND was elected.

The Hydraulic Press Brick Company of St. Louis, the largest concern of its kind in the West, has issued a notice to its employees and officers, notifying them that on the 15th of August a 10 per cent reduction in salaries and wages will be made in both officers' and employees' pay, beginning with the 15th and including all down to the water boys. This is not the sort of information that our conscientious Brother of The Bulletin gives to his readers.

The Free-trade Springfield (Mass.) Republican says that "the cloth market at Fall River is in an unusual condition" that "there is no demand at any price," and that "unless looked for activity comes into the market the only question will be how much cloth is to be piled upon before a shut down is agreed upon." Well, yes; the people are just now enjoying the fruits of the election that The Republican gave them last fall, when it howled for the election of Mr. CLEVELAND.

FRANCIS has a currency of \$179,000,000. St. Louis, the largest concern of its kind in the West, has issued a notice to its employees and officers, notifying them that on the 15th of August a 10 per cent reduction in salaries and wages will be made in both officers' and employees' pay, beginning with the 15th and including all down to the water boys. This is not the sort of information that our conscientious Brother of The Bulletin gives to his readers.

CLOTURE RULE.

The President Said to Favor Its Use in the Senate

For the Purpose of Passing the Bill to Repeal the Sherman Law.

Senator Gorman Opposed to It, But Will Support Cleveland in Repealing the Sherman Act. He Thinks Closure Is Not Needed in the Senate.

WASHINGTON, July 26.—President Cleveland is quoted as favoring a closure rule in the senate for the purpose of passing the bill to repeal the Sherman law. It seems to be conceded that the new house rule will provide for closure, though this new feature of the democratic rule will not be adopted without a sharp fight, in which a number of anti-closure men will aid Mr. Bland and his free silver associates. But it is in the senate particularly that the friends of the repeal bill desire to see a limit put upon debate.

It is seriously questioned in Washington whether President Cleveland will be able to persuade the democratic majority of the senate to incorporate closure, under whatever name disguised, into the rules for the government of that body. It will be remembered that during the great fight over the so-called "force bill" in the senate three years ago the proposition for closure met with opposition from some of the republican senators quite as vigorous as was that of the democratic, who saw in the adoption of a closure resolution the passage of the "force bill."

Mr. Cleveland was then appealed to by many of the republican senators for some expression of encouragement to the democratic minority which was making desperate resistance against the bill under the leadership of Senator Gorman. But Mr. Cleveland maintained a studious silence, a fact which the anti-closure democrats through the south did not fail to work for as a point against the president. It was worth when the elections were being held for delegates for the nominating convention at Chicago. His failure to protect them against a closure rule makes it possible for him now to advise it, but there is good reason to believe that the democratic majority will not accede to President Cleveland's wish, even though it may be conceded on every hand that only by a closure rule is repeal possible.

Senator Gorman, who will be the leader of the majority, was naturally opposed to closure two years ago, and on one occasion he said to your correspondent: "We have no need for closure in the senate. It is true that sometimes subjects are delayed by the senators, but greater length than the country and some of the other senators deem necessary, but it is when you have experience in the senate and that of all my older colleagues that when a majority of the senate is ready to proceed to a vote on question an arrangement for a vote is always reached. There is no need for closure in this body, and there never will be."

It is not to be inferred, however, from the unwillingness of the democratic majority to curtail leaders like the senator who proposed to waste the session in idle talk. It is true that many of the southern senators favor what they are pleased to call a "voluntary" closure, which means follow up to do nothing policy, but Senator Gorman is earnestly opposed to such a course. Said he when here last: "For the first time in a quarter of a century the entire government, executive and legislative, is in the hands of the democratic party. We are now responsible. We can no longer follow our previous course of setting simply on the defensive. The country looks to us for action and we must hereafter become an active, aggressive party with a policy and a courage to carry out that policy."

Submarine Volcano.
St. Louis, Mo., July 26.—A genuine volcano was discovered by a party of bicyclists last week about four miles south of Potosi, Neb. From a fissure in the bluffs it sends forth blasts of hot air with considerable force. A river in the neighborhood has been gradually getting into the heat and it is thought the water has reached a deposit of limestone, producing the heat. There is no peculiar odor nor foreign substance thrown out. The phenomenon has invited the attention of some scientifically inclined people, who will investigate it.

To Answer for Contempt of Court.
CHICAGO, July 26.—Judge James T. McLaughlin is expected to issue a writ of habeas corpus for the purpose of the appearance of the World's fair officials to show cause why they should not be fined for contempt of court for the violation of the injunction secured by C. W. Clingman upon a prayer to restrain the directors of the fair from the sale of fair on Sunday. The proceedings attracted a considerable crowd, but both court and counsel concluded matters in short order.

Plenty of Rifles Abroad.
SPRINGFIELD, Mo., July 26.—Six cases of rifles were loaded on the Memphis train at Springfield station, which is carrying a large number of Negroes to Kansas to take the strikers' places.

PENSIONS.

How Money For Support of That Service Was Appropriated.

WASHINGTON, July 26.—The pension bureau has prepared an estimate of the division of the appropriation provided by congress last session for the support of the pension service during the fiscal year just begun and ending June 30, 1904. The amount of the appropriation was \$108,180,565. Whether this will cover the expenses of the service remains to be seen. It is thought likely, however, that a deficiency appropriation may be required.

The appropriation of \$160,140,565 has been divided into the following payments: For the army pensions, \$161,000,000; for navy pensions, \$3,440,000; for fees of examining surgeons, \$1,000,000; for salaries of pension agents, \$72,000; for clerk hire, \$400,000; pension, agencies, \$15,000; contingent expenses, pension agencies, \$50,000; incidentals, \$9,360.

Of course, this appropriation does not include the cost of maintaining the pension bureau in this city and paying the expenses of running that bureau. That is provided by the legislative appropriation.

TO THE POINT.

Secretary Carlisle Sustains Collector as Customs Clerk of Chicago.

WASHINGTON, July 26.—Secretary Carlisle has received from Collector Clark of Chicago a report of trouble growing out of the examination of certain goods in the Russian exhibit. He fully sustains Collector Clark, who sustains down the principle that the customs duty of these goods (foreign goods on exhibition) as here provided (section 16 of the World's fair act) is not theoretical but actual. Until duty has been paid and a permit for the release issued that custody is paramount against the exhibitor, the foreign consignor or the officers of the exposition. Neither one of them, nor all combined, can interfere with that custody nor with the officers whose duty it is to enforce the law. The trouble is regarded as fully settled by the department, and it is thought nothing further will be done.

A BIG HOLE.

It Is All That Is Left of What Was Intended as a Great Tunnel Under the Hudson River.

JENNY CITY, N. J., July 26.—The question of the application for the appointment of a receiver for the Hudson River Tunnel Co. was before Chancellor McGill Tuesday. The scheme was organized by English capitalists and a capital of \$10,000,000 was subscribed or pledged. In 1881 a mortgage of \$10,000,000 was executed to the General Trust Co. and a second one of \$2,750,000 in 1889 to the Farmers' Loan and Trust Co. Work has been carried on for five years at the foot of Fifth street, and the tunnel has been extended two hundred feet under the bed of the river toward New York. The project, however, has now been practically abandoned, and there is nothing but the big hole under the river to show for the millions of dollars that have been sunk.

HUNGRY AND DESTITUTE.

Over Fifteen Thousand Persons in Immediate Need of Aid Which Is Not in Sight.

CHICAGO, July 26.—Up to date 3,700 names have been registered as out of employment and the list is steadily increasing. Measures are being taken to furnish employment and provide food for the hungry and destitute. Dean Peck and Rev. Thomas Uzzell, who have been foremost in this work, announced that on account of the scarcity of relief funds, they can not continue to feed the hungry longer than Wednesday. Meetings are being held nightly to provide means. It is estimated that 15,000 persons—men, women and children—are in need of immediate aid. Food was being distributed at various missions Tuesday. It is developed that the destitution is growing.

A Purple Dollar.

PITTSBURGH, Pa., July 26.—A recent discovery by Sir Robert Austin shows that 78 per cent of gold and 22 per cent of platinum make up the alloy and produce a metal of a beautiful purple color, and can not be counterfeited. Arguments in favor of this compound are being used by those who would have a dollar containing a given percentage of silver and gold. It is alleged that this compound would be free from the objections to a gold coin recently announced by Senator Sherman.

A Coffin for a Doll.

MEDIA, Pa., July 26.—A unisex little waif, called in being made by Undertaker Quinby of this place, for Mrs. Clara L. Crossman, of Wallingford. The tiny casket is eighteen inches long and six inches wide, and in it will repose was doll 154 years old. This ancient plaything was brought from England in 1769 by Mary Pryor Lockyer. The doll is said to be the oldest ever made, and Mrs. Crossman proposed to preserve it in the grimmest cradle now being made for it.

Battle Between Soldiers and Lepers.
SAN FRANCISCO, July 26.—A fight from Honolulu received by steamer say that a battle has been fought between soldiers of the provisional government and the leper outposts, headed by Loolalo. Three of the lepers were killed. Loolalo escaped. The government has now sent new troops, and will soon forward it to Washington. It is not known what the terms of it are.

Silver Mine to Reopen.

APPER, Cal., July 26.—The management of the Montezuma silver mine has decided to resume operations and ship its output to the smelter, where it is to be stored, awaiting a more favorable condition of the silver market. About two hundred men will be given employment.

Cut in Wages.

RUHLAND, Va., July 26.—The Vermont Marble Co. has notified its men that wages will be reduced 15 per cent. The company, which is the largest marble concern in the world and employs about 2,000 men.

Your Favorite Home Newspaper

And the Leading Republican Family Paper of the United States
Two Papers
One Year
For Only \$3 25.

"The Public Ledger"

gives all the news of Town, County, State and as much National news as any other paper of its class. Your home would be incomplete without it.

"The New York Weekly Tribune"

is a National family paper, and gives all the general news of the United States and the world. It gives the events of foreign lands in a nutshell. It has separate departments for "The Family Circle," and "Our Young Folks." Its "Home and Society" columns command the admiration of wives and daughters. Its general political news, editorials and discussions are comprehensive, brilliant and exhaustive. Its "Agricultural" department has no superior in the country. Its "Market Reports" are recognized authority in all parts of the land. A special contract enables us to offer this splendid journal and The Public Ledger for one year for only \$3 25, cash in advance.

CONDENSED NEWS

Gathered From All Parts of the Country by Telegram.

Mrs. Addie Witham's 3-year-old daughter fell into a bog pen at Carmi, Ill., and was devoured by the beasts. The campmeeting at Des Plaines, near Chicago, is attracting great attention. Rev. Thomas Harrison is the chief preacher. The duke of Venagua's brother, Marquis de Barboles, says the people of the United States ought to remember him also when they pass the hat for his brother.

Ignate Lefkovic, a young Austrian, made the journey from New York to the World's fair in a box marked "Clas, with care." He won his wager, but he nearly died from heat. It is again asserted that the relations between the Prince of Wales and his wife are much strained. The princess has taken her children to Denmark to remain until fall at least.

Giola Gronk, colored, the oldest woman in Clark County, O., died Tuesday at the Springfield infirmary, where she has been for four years. She was 103 years old and was not married.

Mrs. Adeline McMatham, of Jackson Center, near Valparaiso, Ind., Tuesday, by mistake, took a dose of strychnine for a headache, for a sick headache. She lived about an hour, dying in convulsions.

In the New York state building at the fair, Tuesday night Miss Emma Thursty and others gave a concert for the benefit of the sufferers by the cold storage house fire. A sing song was netted.

Mayor Glueck, of Dodge City, Kas., has issued a proclamation, calling on the fair, Tuesday night Miss Emma Thursty and others gave a concert for the benefit of the sufferers by the cold storage house fire. A sing song was netted.

Major Glueck, of Dodge City, Kas., has issued a proclamation, calling on the fair, Tuesday night Miss Emma Thursty and others gave a concert for the benefit of the sufferers by the cold storage house fire. A sing song was netted.

The strike situation in the Cherokee district, Kansas, is regarded as so serious by Gov. Leavelle and his cabinet that eleven companies of militia have been ordered to hold themselves in readiness to move on three hours' notice.

At Cameron, W. Va., during a drunken spree, Jim Evans and Wilson Adams renewed an old quarrel. Harry Adams came to his brother's rescue, and during the fight Evans' head was crushed with a rock in the hands of one of the Adamses. No arrests have been made.

B. F. Roundtree, a wealthy stockman of Slano county, Ky., was assassinated near his home. He was attacked while driving along the road, and received the contents of a double-barreled shotgun, two of the buckshot piercing his heart. Two brothers, named Scott, have been placed in jail.

Hunter shoots Himself. RESERVES, Ind., July 26.—Robert Atwood, about 15 years of age, was out hunting Monday, and accidentally shot himself through the skull, and died Tuesday afternoon.

BROKEN BANKS.

Another Milwaukee Banking Institution Closes.

This Time It's Senator Mitchell's, and Was Considered Strong.

A Fifth Crash Reported in Louisville—The Indianapolis Also Closes Its Two Banks Suspensing a \$100,000.

MILWAUKEE, July 30.—The Wisconsin Fire and Marine Insurance Co. bank closed its doors Tuesday morning. This is Senator Mitchell's bank, and has been considered the strongest bank in the city. This is the fourth crash in this city.

At 10 o'clock Tuesday morning the following notice was posted on the doors of the bank:

"By reason of the stringency in the money market, this bank is closed by order of the board of directors."

J. P. McHenry, Cashier.

This bank, which has generally been known as "Mitchell's bank," is Senator Mitchell, and his father before him, the late Alexander Mitchell, had been the principal stockholders, was considered the very strongest bank in the city, and during the troubles of June and this week, there have been comparatively unimportant runs on it.

The bank was closed up on an action brought by Benjamin Well, real estate man, who alleged that the bank owed him \$3,841.75, which it refused to pay. On motion of R. K. Miller, Judge Johnson appointed Washington Becker receiver, under bonds of \$100,000.

This bank is the city depository, and at the present time holds \$1,035,000 of the city's money.

INDIANAPOLIS, Ind., July 30.—The Indianapolis national bank, capital \$500,000, closed its doors Tuesday morning. No statement has been made as to its condition, except that the failure is for \$100,000.

For many years the Indianapolis National has been regarded as among the strongest banks in the city. The suspension of the bank is due to the general financial stringency.

The Bank of Commerce also suspended Tuesday morning.

Indianapolis is in a fever of excitement. At nearly all the banks there are depositors drawing out their money, but there is not as yet a sustained run on any one of them except Fletcher's bank.

This is one of the oldest in the city and is regarded as one of the soundest and most conservative financial institutions in the west.

LOUISVILLE, July 30.—The Merchants' national bank closed its doors at 10 o'clock Tuesday morning. This is the third national bank of this city which has suspended in the last twenty days.

There was a small local run on the Merchants national Tuesday morning, but that would not have affected the bank.

By 10:30 o'clock it became evident to the directors of the Louisville deposit bank that they could not meet the day's demands.

As the general condition of financial affairs was such as to preclude the hope of outside assistance, the directors ordered the doors closed Tuesday morning, and were prepared, making an assignment to the Germania Trust Co.

At 1:30 o'clock Tuesday afternoon the Fourth national bank also closed its doors.

TAKING OUR FARMERS.

Canadian Government Agents Working in Disguise—Inducing Them to Emigrate.

NEW YORK, July 30.—An Ottawa special says. An interesting international question is to be raised as to the right of the Canadian government agents to enter the United States in disguise with a view to inducing settlers there to emigrate to the Canadian northwest. At least forty of these agents are at work all the way from Dakota. It is further said that a special effort is being made to induce the farmers of New York east of Cape Vincent to emigrate.

The deputy minister of the interior states that last year 2,400 settlers were secured for the Canadian northwest from the United States.

The United States, who has been investigating this matter, is reported to be preparing to file a formal complaint at Washington.

The Canadian agents are assumed by the Canadian agents to be of a farmer and the chief argument used is the vast inferiority of the American soil in comparison with that of Canada.

To Block Cholera's Canadian Entrance.

NEW YORK, July 30.—F. H. Leonard, chief clerk at the immigration bureau at Washington, and Dr. Senator immigration commissioner at Ellis Island, will leave for Montreal next week to inspect immigration methods on the frontier. Dr. Senator believes that the Canadian border now offers an easy entrance for cholera, and he will endeavor by suggesting plans to the treasury department to have new and more stringent immigration and quarantine rules.

World's Columbian Regatta.

WASHINGTON, July 30.—The entries in the World's Columbian regatta, to be held by the national association of amateur rowers, at Detroit, August 9 and 10, will close on July 31. Oscar P. Smith, of Washington, secretary of the association, will receive the entries and furnish special railroad rates for the clubs which participate. The various roads have agreed to carry all boats free.

Getting the Columbia Ready for Test.

PHILADELPHIA, July 30.—It is anticipated by the Grays that the 31-horse power engines of the new cruiser Columbia will be given a dock trial in about ten days. If the trial should be satisfactory it is expected that the unofficial builder's trip of the cruiser will take place some time between the 15th and 30th of August.

GOING TO THE FAIR.

An Eastern Excursion Train Wrecked Near Akron, O.—A Large Number of Passengers Injured, Three Fatally.

AKRON, O., July 30.—A most serious accident occurred on the P. & W. railway at Monroe Falls, about seven miles north of here at 5:30 Tuesday morning. The second section of a Baltimore and Ohio excursion train, loaded with excursionists from New York state bound to the World's fair, was thrown from the track by the spreading of the rails, and three of the day coaches loaded with excursionists rolled down a fifteen-foot embankment and two others were derailed.

Twenty-one persons were seriously injured, three of them fatally.

A number of doctors from here went to the scene of the wreck and did all in their power to allay the suffering of the injured. As speedily as possible they were conveyed to Akron, and all arriving here for at the city hospital.

If reports are true the accident was due to negligence on the part of those whose business it is to keep the track in repair. The train was going around a sharp curve when the accident occurred. The accident was due to defective ties at this point.

All injured passengers were in day coaches. Many of them were asleep when the train jumped the track, not realizing what had happened. The greatest confusion prevailed. The last coach was smashed into kindling wood and it is a mystery that any of the occupants came alive. This was the second section of the regular R. & O. train, the schedule time of which is 6 a. m. The first section made the curve in safety, and the opinion of those in charge of the train is that the tender or the second engine of the second train being a double header and consisting of ten heavily-loaded coaches, was the first to leave the track.

GUITEAU'S PISTOL

Unsuccessful Efforts of Officials to Get Hold of the Weapon.

WASHINGTON, July 30.—The police department officials are trying to get possession of the pistol with which Guiteau shot Garfield, to add it to the museum of such articles already collected and on exhibition. Mr. Donovan, who was property clerk of the department at the time of the shooting, says that the pistol which the attorney carried it away from the station-house after Guiteau's arrest and the clerk could never get him to surrender it. He called on Col. Corkill the following day and several times afterwards, but the colonel stated that it would remain in his safe until after the trial and that then it would be returned to the police department, but after the trial and conviction, Col. Corkill stated that in the present it would remain in his office. Donovan then reported the matter to commissioner Thomas F. Morgan, then in charge of the police department, and he understood that his report was referred to the chief justice of the district superior court.

"About a week afterwards," continues Donovan, "I received an order of the court to turn over the revolver to Col. Corkill, and on the back of the order was Col. Corkill's receipt to the same. I respectfully returned the order to the court with the indorsement not complied with, for the reason that it was unable to do so as the property mentioned was not then, nor ever had been, in my custody." He also notified Col. Corkill that he had returned his receipt to the court, as I could not accept a receipt for property never in my custody. That closed my effort to get charge of the revolver."

Plans of the French.

LONDON, July 30.—The Paris correspondent of the Standard telegraphs: "It is stated semi-officially that the blockade will not be confined to the mouth of the Menam, but that the rivers east and west also will be blockaded. Rear Admiral Gorman will occupy an inch independent miles from the Menam. It is reported also that there is no intention to bombard Bangkok, although the batteries on both sides of the river at Patnam and on the island mid-stream will be destroyed. The royal palace, where twelve thousand soldiers are believed to be massed, will be attacked and occupied."

"Old Original" Soldier's Reunion.

STEELEVILLE, O., July 30.—"The Old Original" soldier's reunion will be held in the grove near Caldwell, Noble county, on August 25 and 26. This is the place where the first reunion of soldiers ever held in the country was held in 1874, when Gen. W. T. Sherman was present. (He has been held annually ever since.)

Three Killed in a Wreck.

HENDERSON, Ky., July 30.—Monday night, at 2 o'clock, a north-bound freight train on the O. & V. railway ran over a cow sleeping on the track near Morganfield, which threw the engine and three cars of the track, killing Engineer E. M. Vandoren, his fireman and brakeman. The engine turned over and Vandoren was burned up beneath it.

The Typhoid Terror.

DAYTON, O., July 30.—John Sowers, a prominent citizen of Orville, well-known throughout the country, died at his home Sunday night from typhoid fever. He contracted the disease while working for the Irish family, four of whom succumbed to the ravages of the disease within the past two months.

Heading for Chicago.

PUEBLO, Colo., July 30.—A hundred miners and skilled laborers from the west have passed through this city on freight trains since Sunday, all bound for Chicago in search of work. They say to remain in the west means starvation. They report hundreds more on the way.

China is Indignant.

TIENTSIN, July 30.—The Chinese government has received the news of France's territorial demands upon Siam and has expressed its indignation. That France should lay claim to country up to the twenty-third parallel is regarded as an intrusion upon the rights of China.

TWIN VILLAINS.

Another Terrible Outrage in South Carolina.

Two Negroes Criminally Assault a White Woman.

One Already Strung Up, And the Other Is Held for Trial. The Crime Was One of the Most Outrageous That Was Ever Committed in This State.

COLUMBIA, S. C., July 30.—A monster gor from Swansea, on the south-bound road, near where the colored race dwell, Tuesday night, was tried by mob court and hanged, brings information that another criminal assault has been committed in this community. The house of Arch Sadler, white, at Gaston, was entered Monday night and his wife, who was at home alone, was choked, beaten and then criminally assaulted by two colored men. One of the colored men, Handy, has been caught, and reports say he has paid the usual penalty.

The other brute, Will Thompson, has not been caught as yet, but the neighborhood is in search of him, and he will be captured.

The news of the lynching reached the city Tuesday, having been received by the chief of police. It was thought that Will Thompson, the principal in the crime, was not yet captured, and Chief Raffel immediately started on the search for him. The report received here shows that it was the most outrageous crime ever committed in this state.

The Negro Handy held the unfortunate woman while Thompson accomplished his purpose. Handy had not been lynched when the gentleman who brought the news to Columbia left, but there was no doubt that it would come in a very short while. Mrs. Sadler, as her name was given here, is not only a highly respectable lady, but is the wife of one of the most prosperous citizens of the neighborhood.

DEMOCRATS HAVE PREFERENCE.

Carlisle's Way of Weeding Out—The Sandy Hook Tests.

WASHINGTON, July 30.—Secretary Carlisle intends to weed out clerks in the treasury department. He began operations by dropping six clerks from the rolls. Others will be dropped from time to time as they are reported by the chiefs of division. These vacancies will be filled, of course, through the civil service commission, and in making so it is the intention of Secretary Carlisle, everything else being equal, to give preference to democrats. It is stated that less than ten per cent of the clerks in the treasury are democrats. A number of reductions and promotions were also made Monday in this department.

The ordnance officers of the army are making some interesting tests of high explosives at Sandy Hook. Last week shells filled with gun cotton and with emmentine were fired from the 13-inch mortars. The purpose was to demonstrate that this could be done without danger of explosion in the gun, and the tests were continuing upon that point. The emmentine shell carried a bursting charge of eighty-seven pounds, and if the further trials that will be made to find a proper fuse are successful, the army and navy will have secured an explosive very different from the famed melinite of the French artillery.

A Collision at Sea.

HYEES, July 30.—Cecil, a first-class cruiser, belonging to the French squadron, now engaged in naval maneuvers in the Mediterranean, ran into the British steamer *Fernando* Tuesday. The collision took place with such force that the *Fernando* sank within a few minutes. All members of the crew, officers and soldiers were rescued. It is not known which of the vessels are to blame for the accident.

Russias Rust on German Products.

BRUSSELS, July 30.—The *Voescheke* Speng says: Germany can afford to calmly await the consequences of Russia's action in imposing a maximum tariff on German products, especially as the prospects of the rye crop in Germany are most favorable. Russia will be taught by her own losses the futility of the course she adopted through her own obstinacy and narrow mindedness.

A Early Assassination.

BURLINGTON, Ia., July 30.—Some unknown person slipped up to the window of Leonard Fritsch's house early Tuesday morning and shot Mrs. Fritsch through the heart as she was lying on a bed, killing her instantly. A neighbor and his son and the dead woman's husband and a hired girl are all under arrest.

Gladiators Score Chamberlains.

LONDON, July 30.—In the house of commons Tuesday sitting as a committee of the whole on the financial proposals of the home rule bill, Mr. Gladstone severely scored his former ally, Jos. Chamberlain. Mr. Chamberlain's attitude was condemned by the members to that of the devil's advocate. The Irish cheered.

Admiral Humber's Fleet Sails.

SATON, July 30.—The division of the far east of the French fleet, which is commanded by Admiral Humber, sailed Tuesday for the Gulf of Siam. The main fleet vessels lying off Bangkok probably will receive time before the blockade to leave the Menam river and sail out to sea.

Cholera Rumors.

ATHENS, July 30.—The Greek consul at Smyrna, Asia Minor, reports that five cases of cholera and two deaths have occurred there. The Greek government has ordered the all vessels arriving from Smyrna be subject to an eleven days quarantine.

Wants to Follow His Wife.

MEXICO, Ind., July 30.—James Clark was taken from the effects of a dose of morphine taken with suicidal intent. The cause is dependency over the drug, which led to death and his own bad health. He is highly respected.
